Experience a **Life in balance.**

Our philosophy

At Nikken our mission is simple, but it inspires everything we do. We help people discover a better way of life — and provide them the means to make it their own.

Founded in Japan in 1975, Nikken introduced the revelation that Active Wellness is achieved through balance: a combination of healthy **mind, body, family, society and finances** — what we call the 5 Pillars of Health®.

A healthy lifestyle strengthens each of these pillars, and Nikken offers you the means to attain this balance, through our products and our business opportunity. We have given millions of individuals and families around the world the ability to dramatically transform and improve their lives.

Nikken is committed to providing the highest-quality products, enabling everyone to achieve Active Wellness.

The Nikken Wellness Home

A home is more than merely a place to live — the choices we make in our living arrangements can actively support our well-being. Home is where we have complete control over what we eat, how we sleep, the quality of our surroundings and how we connect with the people we love.

Recognition of these facts led Nikken to a concept known as the Nikken Wellness Home — an environment that helps promote a family's health and happiness. In a Wellness Home we can enjoy clean air, clean water and natural light. It's where we have wholesome, more organic nutrition and skin care. Where we gain relief from tension and can rest and relax.

Nikken products will transform your home into a Wellness Home, and make good health a regular, integrated part of your daily life.

Our products

Nikken can show you a whole new way of living. Our products combine advanced technologies and physical principles — the natural forces that exist in the universe. Every item in the Nikken product line was conceived with total wellness in mind.

All of our products are state of the art in design, unsurpassed in quality, crafted from the finest materials and made to last. Our exclusive, patented technologies and superior engineering have led to a product lineup that is like nothing else in the market today.

We have product solutions to address each specific area of vital wellness. Starting with the basics — air, water, food, sunlight, and sleep — they can help us combat the effects of the everyday challenges we face in discomfort, fatigue and stress.

Nikken products are a comprehensive approach in support of Active Wellness, for every member of your family.

Our opportunity

Others can enjoy the life-changing benefits of Nikken just as much as you will!

Our products are sold exclusively through our network of Independent Nikken Consultants. Becoming a Consultant will allow you to share your experiences with others, while growing a business, earning an income and making a difference in people's lives.

Your Nikken business has unlimited income potential — without the risk associated with other startup enterprises. With a generous compensation plan, you can achieve real financial freedom just by introducing people to amazing products that you believe in. It's that simple.

Whether you'd like a secondary source of income, or the ability to work from home and make your own schedule, the Nikken opportunity can help you achieve your dreams.

Nikken product technologies

Nikken products are based on the application of various forms of natural energy. Our technologies feature innovations that set them apart from anything else available.

Advanced Magnetic Technology

Magnetic energy is part of the natural universe and surrounds all living things — but modern civilization has altered this environment, with measurable results. Nikken Advanced Magnetic Technology replicates the Earth's magnetic field and helps restore the normal conditions in which human beings are meant to live and thrive. Nikken magnetic products contain proprietary, patented designs and make use of static (permanent) magnets, for safety and reliability.

Kenko Sleep Technology

Found only in Nikken Kenko Sleep Systems, Kenko Sleep Technology is a combination of features that work together to enable better sleep, provide more rest and assist the processes of physical and mental recharging that form the basis of sleep. Kenko Sleep Technology includes magnetic energy, a massaging surface and more to address factors such as support and temperature regulation that are crucial to enjoying sleep that is healthy and restorative.

NikkenWellness Organic-Based Nutrition

NikkenWellness is Organic-Based Nutrition designed to bring the daily diet closer to nature. Each ingredient in the program is carefully selected and where possible, the organic content is maximized. The Nikken concept of Whole Body Renewal includes a Core System to help meet daily needs and modules that offer support for specific biological activities: gastrointestinal, cardiovascular, neurological, immunological, skeletal.

PiMag® Water Technology

PiMag Water Technology begins with a high-tech, multiple-stage filtration system based on natural materials to clean water without chemicals. It adds Nikken magnetic technology and ceramic elements that impart minerals to produce pi water, known in Asia for decades. The result is a unique water system that is more environmentally sound, more cost-effective and more practical than commercially bottled water.

True Elements® Personal Care

True Elements® Personal Care encompasses a complete line of Marine Organic Skin Care and the unique Hair Care products. Natural or organic ingredients are formulated to cleanse, moisturize and nourish the skin as well as the scalp and hair. Designed to work with the natural pH of the skin and scalp, True Elements® promotes a youthful, healthy appearance without the use of harmful chemicals found in commercial brands.

Kenzen® Bone Health Pack

A house requires a sturdy frame for its foundation. The human body's frame is the skeletal system, made up of bones from skull to toes. When the frame of a house deteriorates, the house eventually collapses. The same holds true for the body. When the bones become brittle, the skeletal system bends, breaks or crumbles. Bone health is crucial to overall health, and it starts at birth. Kenzen Calcium Complex and Kenzen BDZ are partner products that deliver maximum support, so the body's structure can stay strong throughout life. With the Kenzen Bone Health Pack, Nikken is pioneering a superior approach to maintaining bone strength, bone density and an Active Wellness lifestyle.

"Bone buddies are your best friends for life."

REST & RELAXATION

Kenko Sleep System

- Reproduces the natural environment that is conducive to healthy, productive sleep
- A unique set of advanced technologies and all-natural materials
- With magnetic technology, natural ventilation, passive massage and more

Kenko Naturest® Custom Pillow

Inside the Kenko Naturest Custom Pillow is a special filler of rolled natural latex. It's designed so that you subtract or replace filler to achieve the desired degree of firmness — your personal perfect fit. The latex offers superior loft retention, unlike a down or foam pillow that flattens with repeated use. It's also a natural material, as is the cover — for improved ventilation and coolness. Deep within the Custom Pillow is patented DynaFlux® Magnetic Technology and an orthopedic support for comfortable head and neck alignment.

#1185 | \$106

Kenko Naturest® Custom Pillowcase

Complete your Kenko Sleep System with the Naturest Custom Pillowcase. Designed to fit standard-size pillows and the Naturest Custom Pillow helps you feel more relaxed. Ceramic-reflective fibers provide warm or cool temperature regulation that's always just right. The Naturest Custom Pillowcase is finished in the same pattern as used in Kenko Dream and Kenko Dream Light Comforters, for a stylish matched look.

SINGLE #1175 | \$36

PAIR #1176 | \$65

Kenko Naturest® Mattress Topper

The Kenko Naturest Mattress Topper includes proprietary Magnetic Technology to produce a series of overlapping magnetic fields that enfold and surround you. The physical foundation of the Kenko Naturest Mattress Topper is natural latex — which provides a blend of support and comfort. An organic, natural-fiber cover promotes ventilation, helps to regulate temperature and offers resistance to flammability without adding the chemicals that some other sleep products require. The surface of specially molded massage nodules is the final touch.

Kenko Dream® Comforter

A perfect balance of comfort for all climates, the Kenko Dream Comforter can help keep you warm and cozy. It is made with Chitocotton which contains a natural substance believed to have bacteriostatic properties. A magnetic layer complements the magnets in your Kenko Naturest Mattress Topper, and ceramic-reflective fibers. The breathable cover is finished in an elegant, satiny weave that dresses up your bed.

KenkoTherm Cocoon

The KenkoTherm Cocoon features a heavy duty industrial strength zipper and durable elastic strap to keep the bag rolled up or to carry. For sleep, warmth or relaxation, the KenkoTherm Cocoon offers Nikken Magnetic Technology and compact convenience. Open it up and you have a queen-size bed comforter, a travel blanket or wrap for outdoor activities. Zip it closed for a snug sleeping bag.

With a 700-gauss magnetic coverage, the Cocoon is a versatile, personal environment you can take anywhere. Made of durable, long-wearing microfiber, the KenkoTherm Cocoon is a portable expression of the unparalleled Kenko sleep experience.

ONE SIZE #1179 | \$201

Kenko PowerSleep Mask

The PowerSleep Mask has patented DynaFlux® Magnetic Technology that increases depth of field and penetration. With a cool and comfortable washable surface, adjustable strap and travel pouch, the PowerSleep Mask completes the relaxation environment that is created by the Kenko Sleep experience.

SINGLE #16821 | \$50

KenkoGround

Reconnecting with Mother Nature

KenkoGround serves as an indoor and portable way to reconnect with Mother Nature. Simply plug it into a grounded outlet and use it under your feet while working, on your mattress while you sleep or even draped around your shoulders. Direct contact with the skin is best.

Nikken Insoles

- Magnetic design, energizing feel
- Unsurpassed comfort and durability
- Supports active lifestyles

Kenko mStrides®

Exceptional comfort — and a major step forward in research and development — Kenko mStrides include patented DynaFlux® Magnetic Technology. When in motion, DynaFlux produces an active, or dynamic magnetic field, with 100% coverage and greater depth.

Low-profile mStrides are comfortable inside shoes while the durable, non-absorbent surface stays fresh.

mStrides are available in two trim-to-fit sizes for men and women. SMALL - SIZES 5-9 WOMEN #20201 | \$61
LARGE - SIZES 7-13 MEN #20211 | \$70

INSOLES REST&RELAXATION

Kenko mSteps®

These unique insoles feature energizing massage nodes, extraordinary comfort, Nikken Magnetic Technology — DynaFlux® operation that acts like a magnetic field generator inside shoes. As you walk, internal DynaFlux components change position to create a dynamic field of energy, and the multiple angles afford 100% magnetic coverage.

The mSteps surface produces the refreshing sensation of a foot massage. Comfortable and strong, mSteps are flexible and long-wearing.

mSteps come in two trim-to-fit sizes for men and women.

Magnetic Massage

- Active surface promotes relaxation and relief with moving nodules that produce a firm, slightly yielding sensation.
- The simple, reliable design eliminates the vibration commonly found in hand-held massagers.
- Patented DynaFlux® Magnetic Technology increases area of magnetic coverage and extends depth of field for greater penetration, creating a multiplier effect not available in other magnetic devices.

KenkoTouch®

Massage is an effective way to ease muscle discomforts. A deep-tissue massage can help loosen tight muscles, help ease discomfort and help relieve stress. A good massage can produce positive results even for those who enjoy excellent health. KenkoTouch® is a unique, advanced system that gives you a heightened magnetic massage experience.

PERSONAL CARE

True Elements® Shampoo

This unique shampoo contains quality, natural ingredients, such as Aloe Leaf Extract, Bentonite, Pro-Vitamin B5, Vitamin E, Copper Gluconate, Peppermint Oil and Germanium. The formula works to clean, moisturize and help treat the scalp. It also helps stimulate hair growth and promote antibacterial, anti-free radical activities.

#18141 | \$38

True Elements® Conditioner

This unique conditioner contains many of the same natural ingredients found in the True Elements Shampoo. The formula completes the cleaning and moisturizing process while conditioning the scalp and hair. Like its shampoo counterpart, True Elements Conditioner does not contain harsh or harmful ingredients, such as sulfates, parabens and PEGS, which can strip hair of its natural oils, damage the scalp's protective barrier, promote the growth of microbes and irritate the skin.

True Elements® Velvet Cleansing Milk*

Velvet Cleansing Milk gently removes impurities and makeup while respecting the natural balance of skin. The seaweed extracts laminaria, chondrus and ulva provide trace elements and minerals that boost the radiance of the skin and maintain its moisture content. The skin is left looking perfectly clean and radiant.

True Elements® Refreshing Tonic Lotion

Soft and alcohol-free, this tonic lotion perfects makeup removal. Laminaria extract together with sodium-light, spray-dried seawater, activate cellular exchanges and microcirculation. Aloe vera, chondrus, and ulva soothe and moisturize the upper layers of the epidermis. The skin recovers tonicity, comfort and brightness.

True Elements® Youth Activ Serum

This serum concentrates several active ingredients to reinforce the skin. Ulva algae stimulate the cellular metabolism and synthesis of elastin fibers. The hyaluronic acid stimulates collagen synthesis for a firmer and smoother looking skin.

True Elements® Nourishing Face Cream*

Shea butter, marine minerals and trace elements restore the barrier function of the skin, provide nutrition and supply moisture to the upper layers of the epidermis. Hyaluronic acid creates a strong moisture reserve. The result is skin that feels soft and smooth.
